TestAutomationPortfolio

Tamil Nadu, India

Automation Test Engineer with 4.8+ years of experience in Java-based automation testing, specializing in Selenium, Playwright, Appium and API automation. Experienced in building and maintaining hybrid automation frameworks, executing regression suites, and working in Agile environments. Strong in improving automation coverage, ensuring release quality, and collaborating with cross-functional teams.

PROFESSIONAL SUMMARY

- ❖ 4.8+ years of experience in software testing, with strong expertise as an Automation Test Engineer (SDET).
- ❖ Proficient in designing and developing scalable hybrid automation frameworks using Java, Selenium, Cucumber (BDD), TestNG, and Maven.
- ❖ Strong experience in front-end (UI) automation testing using Java and Selenium.
- ❖ Hands-on experience in API automation using Rest Assured, including validation of payloads, headers, and response status codes.
- ❖ Experience in mobile automation testing using Appium on Android platforms.
- ❖ Strong knowledge of Functional, Integration, Regression, Smoke, and Sanity testing methodologies.
- ❖ Skilled in handling dynamic web elements using advanced XPath strategies and custom locators.
- ❖ Experience in Test Planning & Test Case Design
- ❖ Experience working in Agile environments with tools like Git and JIRA.
- ❖ Good understanding of SDLC and STLC processes.

SKILLS

Programming Languages: Java, JavaScript

Automation Tools: Selenium, Playwright, Appium

Frameworks: Cucumber (BDD), TestNG, Maven, Page Object Model (POM)

API Testing: Rest Assured, Postman

Mobile Testing: Appium (Android & iOS), Real Devices & Emulators

Database: SQL, MySQL

CI/CD: Jenkins, GitHub Actions

Test Management: JIRA

Version Control: Git hub

Methodologies: Agile, Waterfall

PROJECT EXPERIENCE

HUEWINE TECHNOLOGIES PVT LTD | March 2024 - Present

- Contributed to the design and enhancement of automation frameworks using Java, Selenium, TestNG, and Cucumber.
- Implemented BDD test scenarios using Cucumber and Gherkin to improve test clarity and collaboration with stakeholders.
- Created Rest Assured-based API automation scripts to verify JSON payloads, headers, and endpoints.
- Generated detailed execution reports using Extent Reports, including screenshots for failed test cases.
- Collaborated with DevOps and development teams to ensure stable test environments and smooth release cycles.
- Optimized existing automation scripts to improve execution stability and reduce regression effort.
- Actively participated in Agile ceremonies such as sprint planning, daily stand-ups, and retrospectives.

ATOS SYNTEL PVT LTD | Oct 2021 - March 2023

- Worked on automation testing using Selenium WebDriver for web applications..
- Logged and tracked defects using JIRA, coordinating with development teams for fixes.
- Participated in Agile ceremonies such as daily stand-ups and sprint meetings.

EDUCATION

BE - Mar Ephraem College of Engineering and Technology

CERTIFICATIONS

- Advanced Selenium Certificate of Achievement
 - Agile Communication Certificate of Completion
 - API Testing using POSTMAN & REST ASSURED Certificate of Completion
-
