

AJIN S

Test Automation Engineer

+91 75388 82585 | ajinas273@gmail.com | LinkedIn : Ajin | Test AutomationPortfolio | Kanniyakumari | India

Automation Test Engineer with 4+ years of experience in Java-based automation testing, specializing in Selenium, Playwright, and API automation. Experienced in building and maintaining hybrid automation frameworks, executing regression suites, and working in Agile environments. Strong in improving automation coverage, ensuring release quality, and collaborating with cross-functional teams.

EDUCATION

MAR EPHRAEM COLLEGE ENGINEERING AND TECHNOLOGY

Bachelor's Degree in Electronics and
Communication Engineering

NOORUL ISLAM POLYTECHNIC COLLEGE

Diploma in
Electronics and Communication

SKILLS

Programming Language:

- Java

UI Automation:

- Selenium
- Playwright

Test Frameworks:

- TestNG
- Cucumber

API Testing :

- REST APIs
- Postman

Automation Design Patterns:

- Page Object Model
- Data-Driven Framework

Database:

- Postgresql

CERTIFICATIONS

- Advanced Selenium Certificate of Achievement
- Agile Communication Certificate of Completion
- API Testing using POSTMAN & REST ASSURED Certificate of Completion

PROFESSIONAL EXPERIENCE

HUEWINE TECHNOLOGIES PVT LTD | Software Test Engineer

April 2023 - Oct 2023 && March 2024 - Present | Kanniyakumari | India

- Contributed to the design and enhancement of automation frameworks using Java, Selenium, Playwright, TestNG, and Cucumber.
- Implemented BDD test scenarios using Cucumber and Gherkin to improve test clarity and collaboration with stakeholders.
- Executed automated and manual test cycles, including smoke, sanity, and regression testing.
- Generated detailed execution reports using Extent Reports, including screenshots for failed test cases.
- Collaborated with DevOps and development teams to ensure stable test environments and smooth release cycles.
- Optimized existing automation scripts to improve execution stability and reduce regression effort.
- Actively participated in Agile ceremonies such as sprint planning, daily stand-ups, and retrospectives.

Phantom Solution | Software Automation Test Engineer

Oct 2023 - Feb 2024 | Chennai | India

- Developed and maintained data-driven automation frameworks to improve test script reusability and execution efficiency.
- Automated API and web service testing using Postman and RestAssured, validating responses and business logic.
- Performed manual testing activities including test case design, functional, smoke, sanity, and regression testing.
- Logged and tracked defects using JIRA, collaborating with developers to ensure timely resolution.
- Assisted with test environment setup and test data preparation for both manual and automation testing.

Atos Syntel Pvt Ltd | Software Automation Test Engineer

Oct 2021 - March 2023 | Tirunelveli | India

- Worked on automation testing using Selenium WebDriver for web applications.
- Logged and tracked defects using JIRA, coordinating with development teams for fixes.
- Participated in Agile ceremonies such as daily stand-ups and sprint meetings.
